

(average daily absences of students is at 10)

Approx. 50% of staff/students to be away before school goes to on line learning.

Superintendent Miller-Fry advised these decisions are made on a school to school basis. They ask principals for data. At this time, TOC's do not want to go into schools, therefore some schools are struggling for staff.

The decision to go on line learning/remote learning, is not based on safety but operational.

Is a work in progress.

Such as, do we expand or smaller groups, focus on 4 committees for now Suggested we start with that and go from there.
